Sacred Commitment Law: A Year and a Day Law: Self Dominion

Light, More Light. Intention, More Intention. Love, More Love.

Holly has returned with a Sacred Light of the Universe, an imprint of Sacred Commitment that calls for a deeper knowing of your intentions and holding the striation of tension that allows you to walk a straight path toward Self Dominion. Self Dominion allows you to recognize your wholeness—your Sacred Source Self.

As noted above, two laws are stated. One Law, A Year and a Day, is both a sacred law and a human law. For Holly, she asks you to honor the Law with a commitment to hold a Sacred Intention for a Year-and-a-Day so you may live in Self Dominion (using the Universal Law) in order to find your perfect alignment with Source. As you make a commitment on New Moon, set the trail for a quest and your goal is to reach Self Dominion through your Spiritual philosophy.

Self Dominion calls you to be aware of your Six Levels (S.E.M.P.E.S.) and be in charge of each level:

- ★ Spiritual
- ★ Emotional
- ★ Mental
- ★ Physical
- ★ Ego
- ★ Soul

You are called to merge with consciousness into each level and know that you are the authority of each state of Being. Set the goal to reach the highest level of spiritual awareness.

Empty your emotional state of being so nothing is tugging or pulling on you in directions you do not want to go. Open your mind to higher thoughts and attitudes, with attention directing your commitment. Physically keep your body healthy and your worldly experiences vibrant with creative expression from your healthy mind, emotions and spiritual direction. Allow your ego consciousness to relax...it has nothing to prove. It need only assist you in feeling the power of your higher self and expressing it in the world of activities, reflecting back to Source the dynamics of a world constantly revealing manifestations of the Great Work of Divine Mystery. Invite your soul intentions to be known through the personal levels of your emotions, your mind and your ego.

As you commit to a Year-and-a-day to honor and balance these six levels (S.E.M.P.E.S.), you will maintain awareness of your Inner Light Shining and directing the way. As Holly Moon Mother reveals, "Your own expression is to be honored for it is the Service to Source." Be proud that you are such a Divine Being revealing the Ultimate Light: Source.

The **New Moon of Holly** begins at 12:40:27 pm PDT. It is also a **Solar Eclipse** moment. A Solar Eclipse occurs because the Moon Passes between the Sun and the Earth. (Whereas at Full Moon this last month we experienced the Lunar Eclipse where the Earth passes between the Sun and the Moon). Three Minutes 1.2 seconds, the Total Solar Eclipse will occur. We, however, in the Northern Hemisphere will not view it. It is crossing below the equator with its greatest event in the South Pacific Ocean.

The New Moon is actually in Cancer (Sun and Moon conjunct in this zodiac sign at 19 degrees Cancer 23 Minutes), yet leads the vibration of Holly into action. As a Solar Eclipse, it gives rise to dramatic vibrations that will initiate at New Moon and release its effects for about one year! So, it becomes very important that you make the focus of what you want to initiate rather than be at effect of strong challenges playing wildly through your life. With a Solar Eclipse in the Sign of Cancer and the headlights of Holly, there is much to be considered. Things that can initiate with this Cancer Solar Eclipse deal with Family, Home environment, your emotional foundation, and the security of life that you desire to formulate as strong and creative. Holly will bring everything to Light. These areas will be effected for about a year. They are not anything you can avoid, but with Intention, you can set the vibration for positive experiences (particularly if you take Self Dominion over your S.E.M.P.E.S.

When eclipse vibrations are anchored into your world, it feels like "Fate" has just stepped in. When it is on or near your birthday (within 4-5 days), it reveals an eventful year ahead. Again, be sure you are setting the Intent for positive outcomes and creative passages. If you have any signs within two degrees (plus or minus) of 19 degrees in your birth chart, you will feel the effects of this Solar Eclipse. Depending on the aspect, it may be awesome effects (Trine, or Sextile), or challenging (Squares and Oppositions). I will be placing more information about the Astrological alignments on the **News** page of the website: www.facesofwomanspirit.com by Friday, July 9th so you can prepare more deeply to establish your intent at New Moon.

Setting the vortex for the Month of Holly is truly important at this eclipse. Remember, listen to the messages that come during your ceremony, for they are of importance. Pay attention throughout the day as others may reveal a sacred message by their words or actions. Let the light of truth flow through, as it surely does during an eclipse. During an eclipse time, something old may fade away and something new will begin to take its place...so, don't hold tight, let go and allow the new state to reveal itself (and then set your attitude of commitment to make it a positive experience for a year-and-a-day). Don't set big ultimatums for yourself, be flexible and allow the vibrations to flow. Solar eclipses stir the New State more effectively, while Lunar Eclipses Release the old. So, what has been let go in the last couple of weeks since Full Moon/Lunar Eclipse? Don't call it back...be with the New and Let your Light Shine with positive intention...Holly Moon Mother will provide energetic support for the new realities to multiply.

Ah, further note of Holly, she is the gift of the First Harvest celebrated by the Celtic Festival of Lammas (August 1st - August 7th). The Lammas ritual will be present on the website at: <http://facesofwomanspirit.com/pdf/Lammas.pdf>. It is a "Quarter Festival," and it is best done when the Sun is 15 Degrees of Leo (which occurs at 8:00 a.m. on August 7th, Pacific Daylight Time).

What do you have to Harvest? After giving way to your potentials fully actualized in Oak Moon's time, Holly reminds you to stand up and shine. Enjoy the glory of your talents. Reveal the Special Being you are! Don't hold back smiles of delight that you are recognized for your potentials being seen by others. Holly reminds you to take Pride in your talents for they reveal your reflection of Source and your Service to Source as one who is willing to manifest your soul intentions!
